

Dear Customers,

In August 2012, the United States Security and Exchange Commission (SEC) adopted the Dodd-Frank Act (Section 1502) addressing "Conflict Minerals." This act governs disclosure and reporting obligations for U.S. companies using T3G (tantalum, tin, tungsten, and gold) conflict minerals sourced from the Democratic Republic of the Congo or an adjoining country (Angola, Burundi, Central African Republic, the Republic of the Congo, Rwanda, South Sudan, Tanzania, Uganda, and Zambia).

Control Company is committed to ensuring that all materials and/or components procured from suppliers comply with the Dodd-Frank Act's rules regarding Conflict Minerals.

We are in contact with all of our suppliers to obtain their completed Conflict Minerals Declaration status reporting to Control Company compliance to the "Conflict Minerals" rules before May 2014.

This policy will remain in effect for the foreseeable future.

Sincerely,

Nicol Rodriguez, Quality Manager  
Control Company
